

RENEW WISCONSIN'S AGENDA TO ACCELERATE LARGE SCALE SOLAR & WIND DEVELOPMENT

SOLAR FOR CORPORATIONS AND LOCAL GOVERNMENTS

Working with electric providers to offer a low-cost service to large customers that desire clean energy.

POLLINATOR PLANTINGS UNDER THE ARRAYS

Working with solar developers to landscape their projects with pollinator gardens that sustain bird and bee populations.

SUPPORTING LARGE SOLAR AND WIND DEVELOPERS

Facilitating regulatory approvals through outreach to citizens and media.

HELPING UTILITIES MEET THEIR VOLUNTARY RENEWABLE COMMITMENTS

Our largest utilities' current renewable mix and stated goals.

UTILITY	NO. OF CUSTOMERS	2017 TOTAL RENEWABLES MIX*	STATED GOAL
WEC (We Energies and Wisc. Public Service)	1.15 million + 440,000	WE 7.6% WPS 7.9%	80% CO2 reduction by 2050
Alliant	460,000	13.5%	33% renewables by 2024 80% CO2 reduction by 2050
Madison Gas and Electric	145,000	13.2%	30% renewables by 2030 80% CO2 reduction by 2050
Xcel Energy	256,000	28.1%	80% CO2 reduction by 2030 100% CO2 reduction by 2050
Dairyland Power	258,000	14.5%	PPAs for 98 MW Wind (2018), 20 MW solar (2016), 80 MW Iowa Wind 2016
WPPI ENERGY	200,000	15.9%	PPAs for 132 MW Wind (2018) and 100 MW Solar (2020)
